

BAM SOCIAL MEDIA RULES OF CONDUCT (adopted June 2020)

Beaches Activists Movement is a progressive community group with a strong shared commitment to civic engagement, free speech, quality education, environmental protection, and other progressive values. To make this a place where we listen to and respect each other, we will manage this area guided by these principles:

We welcome:

- Stories, quotes or images that reflect your vision of what America, or our beach communities, can/should be.
- Information that educates citizens of our area regarding local, state & national political issues and candidates.
- Questions about public policy or public figures that encourage reasoned conversation.
- Information that motivates people to register and vote.
- Information about events or opportunities for active engagement in our political life.

We don't allow:

- Posts that engage in hate speech or name-calling. Everyone deserves respect as a human being, even people who disagree with you.
- Posts containing violent or graphic content.
- Posts offering false information.
- Posts intended purely to inflame and divide us.
- Posts that violate accepted community standards.
- Spam or ads for goods & services that have nothing to do with BAM.

Our FB and group pages adhere to and endorse the Community Standards developed by Facebook (<https://www.facebook.com/communitystandards/>). We reserve the right to exceed these standards and to refuse publication of any and all posts that do not meet BAM's adopted Rules of Conduct.
